STATE BOARD MAY ACT

HOLD CONFERENCE WITH COM-MISSIONERS TODAY.

State Board Usually Raises the Salt Lake Assessments, No Matter How High They Are Placed-Commissioners Contend Assessments Are High Enough.

If the state board of equalization does not increase the assessments on Salt Lake real estate or some other classes of property it will be a rare occurrence

indeed. As a matter of fact, the orilinary taxpayer fails to remember the year when the state equalizers did not boost Sait Lake City's tax valuations, no matter how high they were placed by the assessor and the county commissioners.

The favorite method of the state board is to add 5 per cent to real estate values, and if this is done it will add \$525,500 to the assessment roll and make this year's total a little larger than the aggregate of 1898. Ninety per cent of the added burden would fall upon Salt Lake City taxpayers.

Uniforms, Tents and Camp Equipage For the Utah Soldiers-Consign ment of Ammunition Coming.

The Utah National Guard was treated to a surprise yesterday by receiving its first invoice of supplies from the United States government, as per requisition forwarded from Adjutant General C. S. Burton June 22. This is the quickest delivery ever known to have been made for years. The consignment of supplies was shipped from the quartermaster's depot at St. Louis and consists of 200 trousers, 250 blouses, 200 campaign hats, 400 pairs of gloves, 155 pairs stripes for infantry, 255 stripes for cavairy, 132 company books, 4 trumpets, 10 axes, 4 hatchets, 10 pick-axes, shovels and spades, 25 mess pairs, 20 cordeal wall tents, 30 wall tents, 2 hospital tents and files and 10 wall tent files, 632 tent pins (arage), 2,058 tent pins (smail), with all necessary tent poles. United States government, as po-

poles.

The tents are of the same color as the sam has decided that the white tents were too conspicious, and they must, therefore, make way for the drab. Uncle Sam has become very generous also, as he detailed three men and a four-mule team from Fort Douglas to haul the freight from the depot to the armory, which amounted to a full carload.
